Safety Information

1. Read and understand all instructions and illustrations completely before proceeding with assembly and installation of this fixture.
2. Never attempt any work without shutting off the electricity.
3. Go to the main fuse box, or circuit breaker, in your home. Place the main power switch in the “OFF” position and unscrew the fuse(s), or switch off the circuit breaker switch(es), that control the power to the fixture or room that you are working on.
4. Place the wall switch in the "OFF" position. If the fixture to be replaced has a switch or pull chain, place it in the "OFF" position.
5. If you have any doubts about how to install this lighting fixture, or if the fixture fails to operate completely, please contact a licensed electrical contractor.
6. All parts must be used as indicated in these instructions. Do not substitute any parts, leave parts out, or use any parts that are worn-out or broken. Failure to obey this instruction could invalidate the ETL listing and/or C.S.A. certification of this fixture.

DANGER: Hazardous voltages cause severe injury or death. Disconnect all sources of power before servicing.

WARNING: Hazardous voltage! Disconnect power before servicing.

CAUTION: Do not use bulbs that exceed the recommended wattage specified on the fixture.

Warranty

1-YEAR LIMITED WARRANTY

The manufacturer warrants that this product will be free from defects in material and workmanship for one (1) year following the date of shipment. If any of the warranted products are found by the manufacturer to be defective, such products will, at the manufacturer’s option, be replaced or repaired at manufacturer’s cost. The parties hereto expressly agree that the buyer’s sole and exclusive remedy against the manufacturer shall be for the repair or replacement of defective products as provided herein, or, at the manufacturer's sole option, the manufacturer may refund the purchase price of the products. The foregoing warranty is in lieu of all other warranties, expressed or implied, including those of merchantability, fitness for any particular purpose, or infringement. No affirmation of the manufacturer, by words or action, other than set forth in this paragraph shall constitute a warranty. Goods which may be sold by the manufacturer, but which are not manufactured by the manufacturer, are not warranted by the manufacturer, but are sold only with the warranties, if any, of the manufacturer thereof.

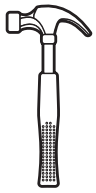
This warranty does not cover bulbs or finish on outdoor product. In addition, it does not cover labor or other costs or expenses to remove or install any defective, repaired, or replaced product. The manufacturer's warranty does not apply to any products that have been subjected to misuse, mishandling, misapplication, neglect (including, but not limited to improper maintenance), accident, improper installation, modification (including, but not limited to use of unauthorized parts or attachments), adjustment, or repair.

Pre-Installation

Please read and understand this entire manual before attempting to assemble, operate, or install the product.

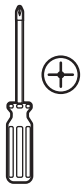
NOTE: Before beginning assembly of this product, make sure all parts are present. If any part is missing or damaged, do not attempt to assemble the product.

TOOLS REQUIRED



Claw hammer

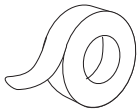
Safety goggles



Phillips screwdriver

Pliers

Wire strippers

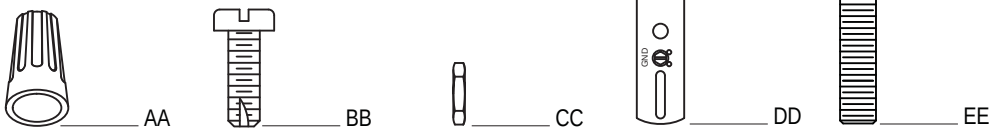


Electrical tape

Ladder

HARDWARE INCLUDED

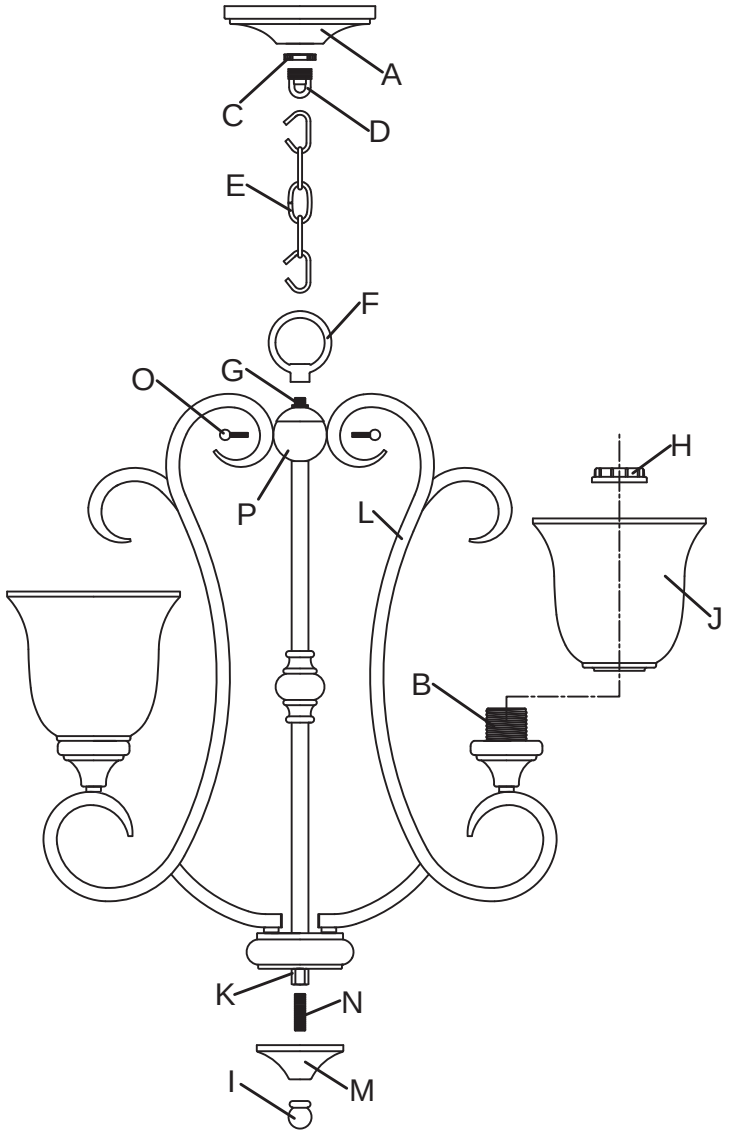
NOTE: Hardware not shown to actual size



Part	Description	Quantity
AA	Wire Connector	3
BB	Short Machine Screw	2
CC	Hex Nut	3
DD	Mounting Bracket	1
EE	Threaded Nipple	1

Pre-Installation (continued)

PACKAGE CONTENTS



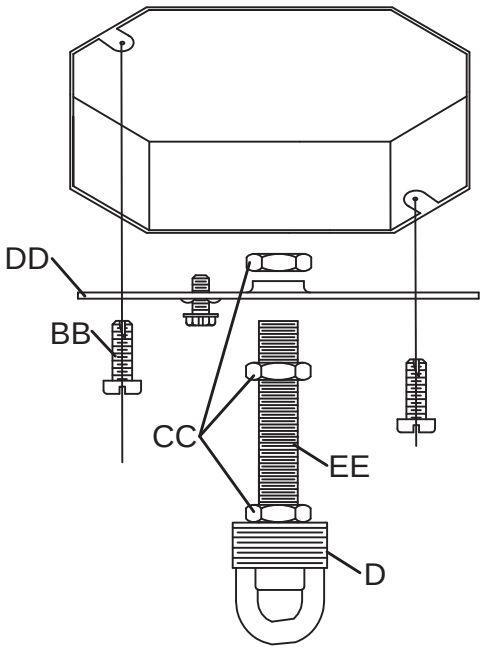
Part	Description	Quantity
A	Canopy	1
B	Threaded Socket	3
C	Screw Collar Ring	1
D	Screw Collar Loop	1
E	Chain	1
F	Fixture Loop	1
G	Threaded Post	1
H	Threaded Socket Ring	3

Part	Description	Quantity
I	Finial	1
J	Glass Shade	3
K	Coupling	1
L	Arm	3
M	Decorative Cap	1
N	Threaded Pipe	1
O	Thumb Screw	3
P	Fixture Body	1

Installation

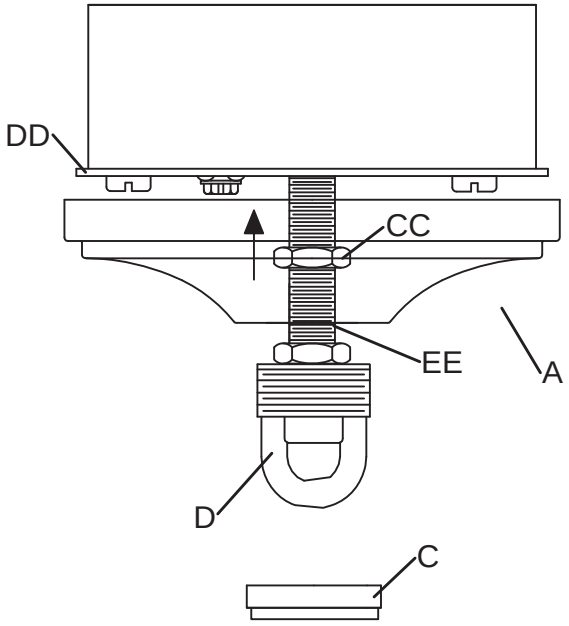
1 Installing the mounting bracket

- □ Orient the mounting bracket (DD) so that the raised center portion protrudes into the outlet box.
- □ Connect the mounting bracket (DD) to the outlet box with machine screws (BB).
- □ Screw the threaded nipple (EE) into the screw collar loop (D) a minimum of 1/4 in. Lock it in place with a hex nut (CC).
- □ Thread another hex nut (CC) to the center of the threaded nipple (EE), and screw the threaded nipple (EE) into the mounting bracket (DD). Lock the threaded nipple (EE) in place with a hex nut (CC).



2 Attaching the canopy

- □ Pass the canopy (A) over the screw collar loop (D).
- □ Turn the screw collar loop (D) in or out of the mounting bracket (DD) until 1/2 of the screw collar loop (D) exterior threads are exposed.
- □ After a desired position is found, lock the threaded nipple (EE) in place by tightening the second hex nut (CC) up against the mounting bracket (DD).
- □ Attach the screw collar ring (C) to the screw collar loop (D).



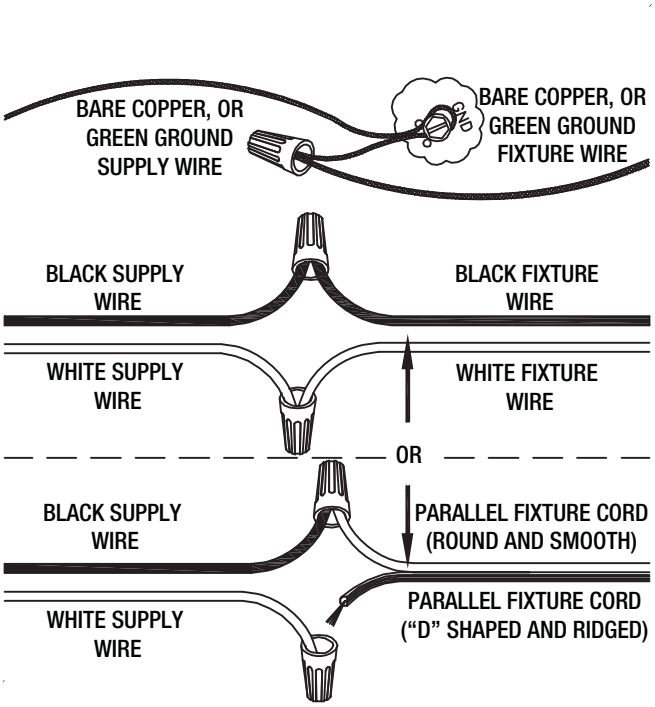
3 Making the electrical connections

DANGER: Hazardous voltages cause severe injury or death. Disconnect all sources of power before servicing.

- □ Make the wiring connections using the wire connectors (AA) according to the diagram.
- □ Wrap the ground wire from the outlet box around the ground screw on the mounting bracket (DD) no less than 2 in. from the end of the wire.
- □ If the fixture is supplied with a ground wire, connect it to the outlet ground wire with a wire connector (AA).

NOTE: For installation in Canada, if the fixture is supplied with a ground wire, wrap it around the ground screw on the mounting bracket (DD), and tighten the ground screw.

NOTE: When parallel wire (SPT I & SPT II) is used, the neutral wire is square shaped and ridged and the hot wire will be round in shape and smooth.



BARE COPPER, OR GREEN GROUND SUPPLY WIRE
BARE COPPER, OR GREEN GROUND FIXTURE WIRE
BLACK SUPPLY WIRE

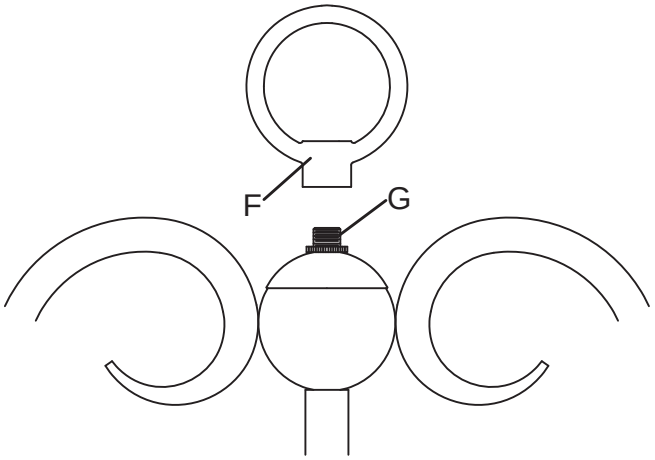
BLACK SUPPLY WIRE
PARALLEL FIXTURE CORD (ROUND AND SMOOTH)
WHITE SUPPLY WIRE
PARALLEL FIXTURE CORD ("D" SHAPED AND RIDGED)

4 Attaching the fixture loop

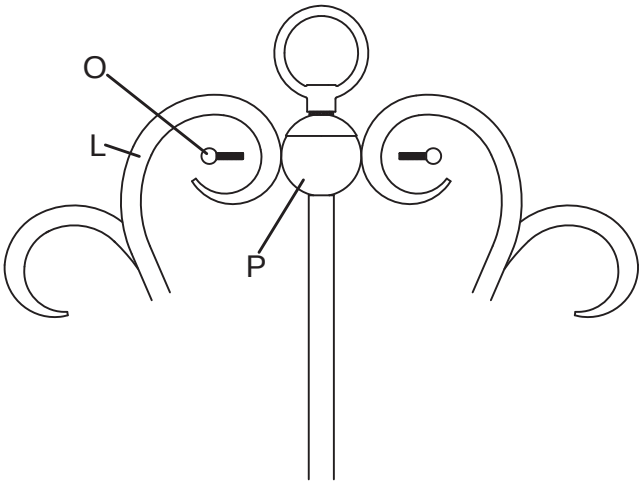
- □ Screw the fixture loop (F) onto the threaded post (G).



5 Securing the arms

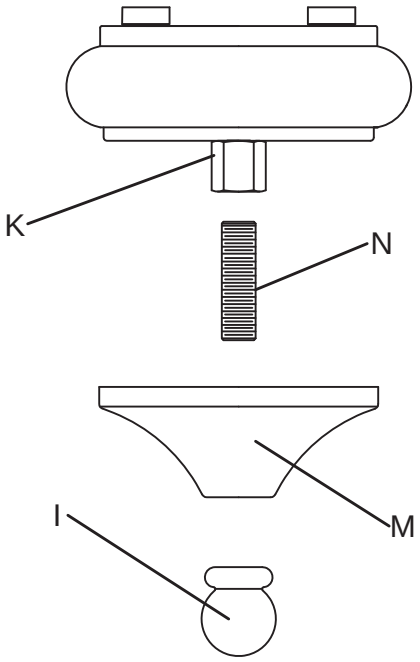
- ☐ Pass the thumb screws (O) through the arms (L) and into the fixture body (P).

NOTE: Be sure the fixture arms are spaced evenly before securing.



6 Assembling the decorative cap

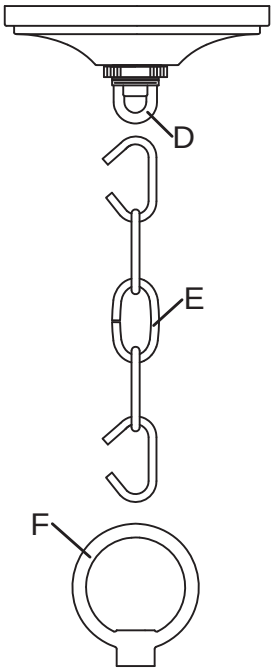
- ☐ Screw the threaded pipe (N) into the coupling (K).
- ☐ Pass the decorative cap (M) over the threaded pipe (N) and secrue in place using the finial (I).



Installation

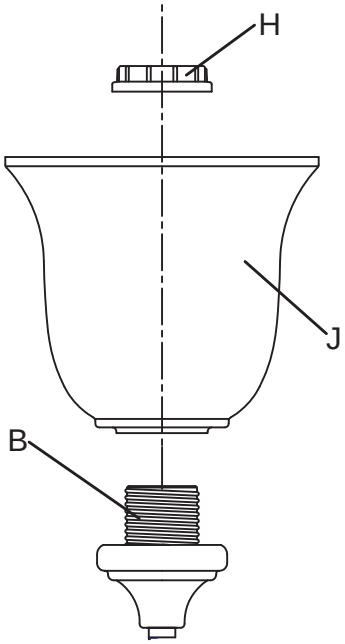
7 Hanging the fixture

- ☐ Attach the chain (E) to the screw collar loop (D).
- ☐ Raise the fixture up, and attach the chain (E) to the fixture loop (F).



8 Installing the bulbs and shades

- ☐ Lower the glass shade (J) over the threaded socket (B). Screw the threaded socket ring (H) onto the threaded socket (B).
- ☐ Repeat this process for the remaining fixture arms (L).
- ☐ Install three 100W max., medium base bulbs (not included) into the socket assemblies (B).



Care and Cleaning

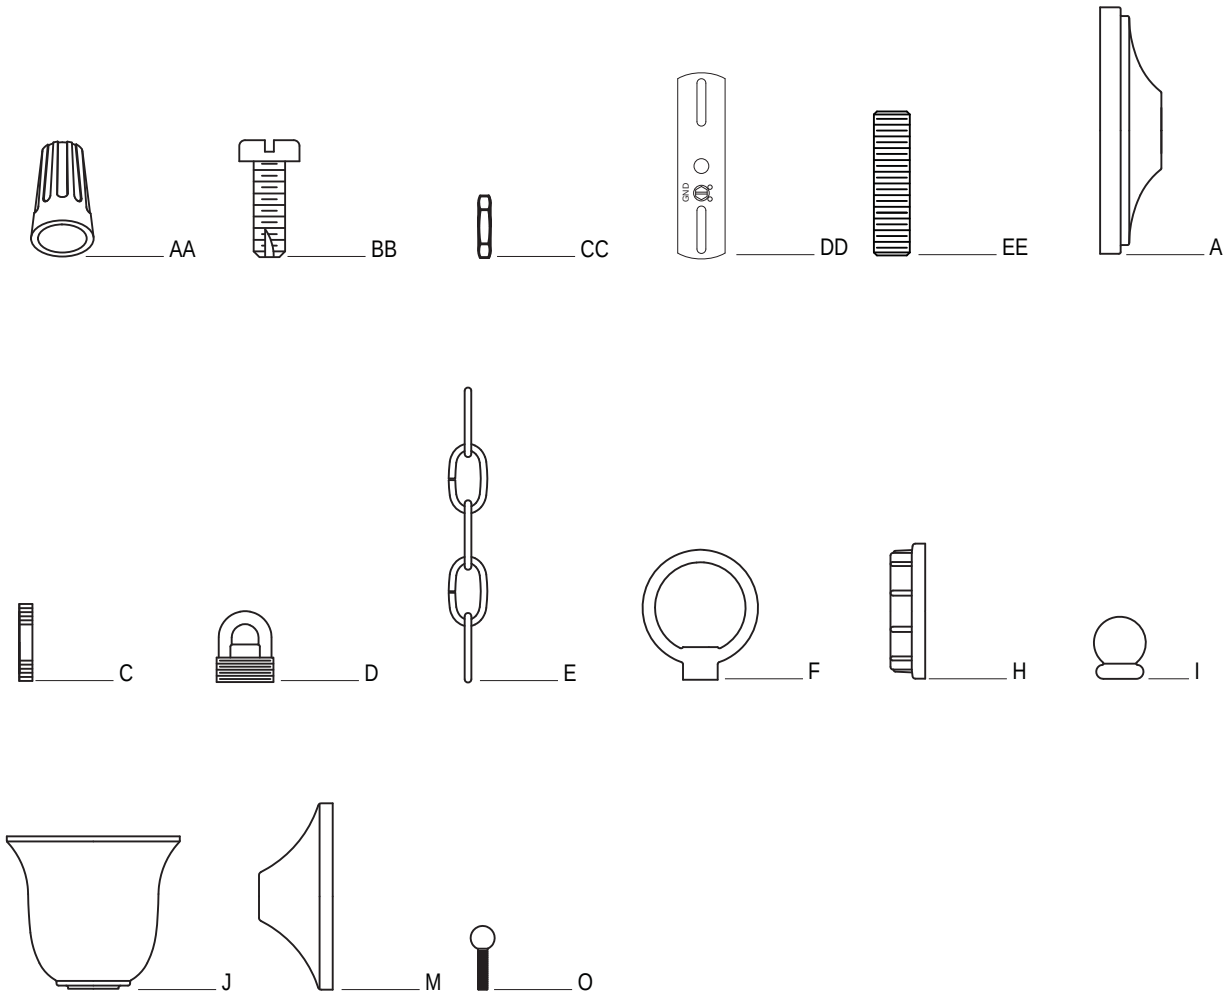
- □ When replacing bulbs, use 100W max., medium base bulbs.
- □ Always be certain that the electric current is turned off before cleaning this item.
- □ Use a soft, moist cloth with mild, non-abrasive soap to clean the fixture. Never use glass cleaner on the fixture, as it will damage the metal finish.
- □ All glass shades may be washed in a towel-lined sink with warm water and mild soap. Do not wash shades in an automatic dishwasher.

Troubleshooting

Problem	Solution
The fixture does not light.	□ Check the wiring. □ Replace the bulb(s).

Service Parts

Chandelier



Part	Description	Part #
AA	Wire Connector	WC001
BB	Short Machine Screw	SCR832X050
